

# Jai Srivastav, Software Engineer

jaiakt@gmail.com | (925)-858-0755 | Pleasanton, CA

---

EDUCATION      **University of California, Los Angeles**      Sep 2015 — June 2019

BS - Computer Science and Engineering, GPA: 3.8

- CS111 - Operating Systems      • CS180 - Algorithms
- CS131 - Programming Languages      • CS161 - Artificial Intelligence

---

EXPERIENCE      **Apple, Software Engineer Intern**      June 2017 — Sep 2017

- Designed and developed a distributed testing system for continuous integration for FileMaker Server
- Developed custom testing suite with Javascript testing frameworks
- Developed a centralized test log collection server

**[24]7, Software Engineer Intern**      June 2016 — Sep 2016

- Developed an automated call tagging system with text mining tools and machine learning algorithms (k-means & hierarchical clusters) using R and Java
- Developed a dashboard for customer interaction tagging using Elasticsearch and Kibana
- Developed tools for tagging call records using Bash and Python scripts

**UCLA UPE (CS Honor Society), Corporate Chair**      May 2016 — Present

- Primary point of contact with leading CS companies, including Google, Microsoft, and Amazon
- Organize tech talks with over 100 attendees
- Qualified by being in top 1/3 of CS junior class

**UCLA TBP (Engineering Honor Society), Treasurer**      Dec 2016 — Present

- Manage income and expenses of over \$10,000 for engineering events
- Qualified by being in top 1/8 of engineering junior class

---

INTERESTS      Distributed Computing      "

SKILLS      **Programming Languages (*Master*):** C++, Java, Python, Javascript  
**Development Technologies (*Master*):** Bash, Git, Docker, Vagrant, Saltstack  
**Mobile Development (*Intermediate*):** iOS, Android

---

LANGUAGES      English (*Native speaker*) , Hindi (*Conversational*) , Spanish (*Conversational*)

---

HONORS      **Marvel API Prize, Disney @ LAHacks**      Apr 2016

- Won BB-8 robot
